Over the past few months, Godwin Dri-Prime Pumps, in the hands of Delta Construction's skilled professionals, have made a difference, rescued the beauty and improved the function of Waikiki's Hilton Lagoon.

Our pumps kept water moving at rates up to 15,000 gallons per minute. The results of this project are remarkable. The lagoon is beautiful and has an ingenious design – water from deep wells is constantly pumped into the lagoon and then flows through the Ala Wai Harbor on its way to the sea.

Hilton Hawaii's Duke Paoa Kahanamoku Lagoon
