

Over 80 Attendees at Pump Training Course #225!

Thank you to everyone who was able to come and take part in the Pump Training Course we offered May 11-15, 2009, with our guest instructor from Godwin Pumps, Carl Richards! We had a great turnout of over 80 attendees, everyone receiving Continuing Education credits and a State Certificate. We are planning on hosting another training course in approximately six months on Oahu, Maui, Big Island and Kauai!

Dewatering at Hickam Air Force Base by Bobby K Construction

Bobby K Construction used three 8" CD225M Critically Silenced Dri-Prime Godwin diesel pumps to dewater a wet well on Hickam Air Force Base during construction of a sewer lift station. The three pumps, capable of pumping over 9000 gpm, quickly drained the wet well, discharging through a temporary pipeline made up of 8" and 12" Bauer pipe. A 4" Heidra 100 pump kept the 18' deep trench dry while crews finished coating and patching. Two 12" road ramps allowed heavy equipment to drive safely over the discharge pipeline during the project.
