## HDPE Pipe in the Valley!

Pacific Pump & Power's fusion crews buttoned up the last few joints on a dual 10" DR11 HDPE Sewer Force main. This force main is in a bit of a precarious location, but thanks to our McElroy self-contained TracStar T500II, the rugged terrain was no problem.

Do you have a need for fusion equipment? We rent, sell, operate and repair them. In our Certified McElroy rental fleet, we currently have small 1-4" manual machines, rolling 2-8" and 6-18" hydraulic machines and the self-contained TracStar T500II! We also have factory certified technicians, mechanics, and a factory authorized trainer! If you would prefer to buy a machine, we stock new machines that are most commonly used in Hawaii as well as a pretty extensive parts inventory.

If there is anything we can do to help you with your equipment, big or small, do not hesitate to call 808-672-8198 **anytime** or email us at [Sales@HawaiiPumps.com](mailto:Sales@HawaiiPumps.com).

*Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei*
