Sewer Bypasses for the Ala Moana Expansion

Pacific Pump & Power worked alongside a contractor to bypass the existing sewer systems at the Ala Moana shopping center during construction. Both of the two bypass set-ups utilized 4" Godwin Dri-Prime Pumps with automatic float controls, enabling the diesel engines to run during active sewage flow and shut down as the flow subsides. These Dri-Prime pumps are fully automatic priming pumps that can operate completely from dry conditions and rapidly prime and reprime without any damage to the pump.

The 4" CD100M Godwin Dri-Prime pumps in the photo below and the 4" CD103M Godwin Dri-Prime pumps in the photo above are all Critically Silenced, so they only produce 68 dBA, making them ideal for a project such as this. When construction is operating around the clock and engine noise must be kept to a minimum to lessen the disturbance and inconvenience for surrounding neighbors, the acoustically-silenced enclosures of Godwin's Critically Silenced pumps are the optimal choice for these applications.

If there is anything we can do to help you with your equipment, big or small, do not hesitate to call 808-672-8198, **anytime**, or email us at Sales@HawaiiPumps.com.

Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei
