Fusing High Density Polyethylene Pipe Fusion

Pacific Pump & Power did a small high-density polyethylene (HDPE) pipe fusion project over on Maui, which was a great success. The client had a HDPE air system running at their facility and had a failure in the piping. PPP came in and cut out the damaged piping, replaced it with new HDPE and installed isolation valves.

This work was in tight spaces so in some areas, we did the fusion with an electro-fusion machine and in other areas, we changed out the pipe with butt-fusion using a McElroy fusion machine.

The fusion work was done by one of our certified operators to ensure excellent joints.

If there is anything we can do to help you with your HDPE pipe fusion needs, do not hesitate to call 808-672-8198, **anytime**, or email us at Sales@HawaiiPumps.com.

Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei
