Rental • Sales • Service • Operations

Pacific Pump and Power is Hawaii's Atlas Copco distributor for industrial air products. Not only do we sell the full product lines from the largest air compressor company in the world we also have sent our mechanics and General Manager for factory training. We can assist you with your existing compressor repairs and servicing. Lots of our clients also schedule us to do quarterly preventative maintenance to ensure their air systems are always reliable.

Our engineering team is offering free air audits at this time! This is a service that in the mainland they are charging thousands of dollars for and we are currently doing them here at no charge. The data logging equipment for these audits tracks a week of your compressors energy use so we can analyze with Atlas Copco's propriety software your annual costs and how the compressor is using the power. With this information we can quote you a better suited compressor. We have found that in Hawaii, in many situations with the \$0.30/kw power rates, our VSD compressors can save you tens of thousands of dollars a year in energy costs!

If you are interested in an air audit, or need assistance with fusion, compressed air, pumps, power, sewer bypass, pipe plugs, service or operations, please call us at 808-672-8198 or email Sales@PacificPumpandPower.com

Check us out on the web at www.PacificPumpandPower.com
