Stock is Finally Coming In!

As you probably know, Pacific Pump & Power has been repairing gasoline trash pumps, generators and a range of random equipment powered by Honda motors for many years. In 2021, Honda added us as a distributor, so we have better access to parts and equipment!

At this time our inventory of parts is pretty decent. We have a selection of gas trash pumps, both Honda and Godwin (the Godwin's have Honda motors also), and we have received some of our stock order of gas-powered generators and new stock motors.

If you need assistance with Honda engines or power equipment, generators, compressed air, sewer bypassing, pumps, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiipumps.com
