Neighbor Island Fleets

Oahu holds majority of the population in Hawaii, therefore the majority of the work tends to be on Oahu. The neighbor islands are having lots of work as well! Pacific Pump & Power has been increasing our rental fleets in Kauai and Maui to better handle projects on those islands with equipment in stock on island.

We currently stock six 6" Dri-Prime pumps in Kauai, four open units and two critically silenced units. In that yard, we have suction and discharge hoses to compliment the pumps.

In Maui we currently have two 8" critically silenced pumps and two 6" critically silenced pumps. In that yard we have a selection of suction and discharge hoses, as well as 6" and 8" Bauer piping, valves, pipe plugs, floats and fittings to tie together a full turn key bypass in either 6" or 8".

Pacific Pump and Power would love to increase the amount of equipment we stock in the neighbor islands, so if there is something you wish we had in one of our yards, different sized pumps, air compressors, generators, fusion equipment, hose or piping, just reach out and let us know!

If you need assistance with sewer bypassing, generators, compressed air, dredging, pumps, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiumps.com
