

Pacific Pump and Power Receives State Approval for New Pump Training Course

Our Course, Hawaii Pumps # 225, has received state approval teaching how pumps work, how to set them up and how to troubleshoot them.

Feb 26-28th, we ran two sessions at the State of Hawaii Training Center in Honolulu and one session at the Wastewater Reclamation Department Training Center on Maui. Thank you to Wade Thode and Theodore Leong who permitted us to use their facilities.

The course consists of two parts. Four hours of classroom training and two hours of practical training with pumping equipment. There is a written test and a hands on troubleshooting test where the students find the faults on the pump and repairs them.

We are planning to run this course for clients and prospective clients every six months. If you are interested in training your operators and mechanics, please send an email to sales@pacificpumpandpower.com.
