## Basic Hydraulics and Portable Pump System Design Course # 225

We are planning to teach this course during the week of May 10<sup>th</sup>. This course has received state approval, and consists of two parts: four hours of classroom training and two hours of practical training with pumping equipment. There is a written test and a hands-on troubleshooting test where students find the faults on a pump and repair them. If you are interested in this course and would like to sign up or want additional information, please give us a call at 672-8198 or send an email to [sales@pacificpumpandpower.com](mailto:sales@pacificpumpandpower.com).

Course # 225 at the State of Hawaii Training Center in Honolulu

Course # 225 Certificate

## HWEA Conference 2009

Thanks to all who stopped by to visit our booth this year at the Hawaii Water Environment Association Conference, Feb 4-5. There was a great turnout of visitors and vendors as well as all the team members who participated in the Operations Challenge. The OPS Challenge combined five equally weighted skills tests in the Collections, Laboratory, Maintenance, Process Control, and Safety Events. Congratulations to the City and County's Septic Soljahs who won the challenge and will be going to nationals at WEFTEC later in the year.

Our booth at the HWEA Conference 2009
