

Cornell Pumps Installed at Wet n' Wild Hawaii Adventure Park!

Wet n' Wild Hawaii Adventure Park has the capacity to move over 60 million gallons of water per day! This is with the help of the two new Cornell 6YB – 50HP pumps they purchased from Pacific Pump and Power to run their new "Raging River" ride.

The two new Cornell pumps are capable of pumping 7.4 million gallons per day! Pacific Pump and Power's mechanic and equipment manager along with the construction crews, pipe installers and electricians at Wet n' Wild helped ensure that the pumps would run efficiently and problem free. Wet n' Wild Hawaii is already looking into their next Cornell pump purchase.
