

Free Pump Training Course #225: Basic Hydraulics and Portable Pump System Design

For the second consecutive year, we are flying in a guest instructor, Carl Richards, to conduct the five one day courses. A seasoned Engineer, Mr. Richards brings with him a broad range of education and practical experience in the pumping industry. He has served as an Application Engineer and Project Engineer for pump and dredge manufacturing companies. He is currently a Branch Manager and Engineer at Godwin's Western Region.

This is a chance to broaden the scope of your company's capabilities, from bidding and design to execution. Participants will learn to choose the right pump for the job, be it an outright emergency or a carefully planned project. They will learn to design and set up a portable pumping system for any job based on a practical knowledge of hydraulics. Approved by the Statewide Wastewater Operator Training Center, participants will earn 0.5 Continuing Education credit and a State issued certificate.

Monday, May 11, Oahu

State Wastewater Operator Training Center, In front of the Wastewater Treatment Plant, 1350 Sand Island Parkway

Tuesday, May 12, Oahu

State Wastewater Operator Training Center, In front of the Wastewater Treatment Plant, 1350 Sand Island Parkway

Wednesday, May 13, Maui

Wastewater Operators' Training Room, Kihei Wastewater Treatment Plant, 480 Welakahao Road, Kihei, Maui

Thursday, May 14, Big Island

West Hawaii Wastewater Operators' Training Room, Wastewater Treatment Plant, Kealakehe, Hawaii

Friday, May 15, Oahu

Clean Islands Council Training Center, 179 Sand Island Road

All classes are one day, from 0800-1500, with two 15 minute breaks and a half hour for lunch. We will provide donuts. The syllabus includes outdoor practical operations and troubleshooting, in addition to the classroom events.

Don't miss this opportunity to gain valuable skills and knowledge and increase the capabilities of your organization. Sign up now by responding to this newsletter.
