

Goodfellow Bros Emergency Bypass at Waipahu

On February 19, 2009, Goodfellow Bros was called out to do an Emergency Bypass in Waipahu. Pacific Pump and Power quickly responded by providing planning, design, oversight, and equipment including pumps, Bauer pipe, hoses, pipe plugs and fittings. Using three 6" CD150M's, two 4" CD103M's and one 4" CD100M, Goodfellow Bros were able to accommodate the flow requirements of the bypass.

Pacific Pump and Power supplied on-site mechanical support and both maintenance and operational training.

The bypass was completed and after wrapping up, Goodfellow Bros brought their four Godwin Pumps to Pacific Pump and Power's yard for complete maintenance and repairs. Now they are ready to go for their next emergency!
