

## Godwin Dri-Prime Pumps Are Being Installed Nation Wide As Automatic Dri-Prime Back-Up Systems!

*Godwin Critically Silenced Dri-Prime pump in Jessup, Maryland*

*Two Godwin DPC300 Dri-Prime pumps at OWASA in North Carolina*

Municipalities across the nation are concerned with maintaining lift station capabilities during system failures. The traditional design of lift station back-up systems incorporate diesel powered generators to provide electricity in the event of a power outage. To ensure critical pumping capabilities, these generators are being replaced by Automatic Dri-Prime Diesel Pumps so in the event of a pump failure, power outage, sewage clogging or other mishaps, the back-up pump system comes on and ultimately improves lift station reliability and flexibility.

Lift station back-up systems are already becoming a trend in the Hawaiian Islands for the military bases thanks to the help of Aqua Engineers (see picture on left).

Don't Forget!!!

## HWEA Conference 2010

Neal Blaisdell Center, Exhibition Hall on March 16 & 17, 2010

The exhibition is open to public and will be held on:

March 16, 8:00 – 4:30 pm

March 17, 8:00 – 3:00 pm

Our major line of equipment such as pumps, generators and light towers will be on display.

Come on by our booth and we would be more than happy to show you new and exciting things we have in store.

See you then!
