

Free Pump Training Course #225: Basic Hydraulics and Portable Pump System Design

Pacific Pump and Power is offering our 3rd Annual State Certified Training Course! This course is **FREE** of charge. Come learn how pumps work, portable system design, and pump trouble shooting. Each year, we receive feedback of what changes you would like to see in our training course:

- "More hands on work on a Godwin Pump"
- "Pump Troubleshooting and Repair"
- "Further testing on pump application system for difficult conditions"

With these feedbacks, we have restructured the course to focus more on trouble shooting and in field knowledge. The course will be taught by our general manager, Paul Leonard, who is a Godwin factory trained representative. He has a broad background in both the mechanical and engineering side of the pumping industry.

Course schedule for this year will be as follows:

- Tuesday, June 1st - Sand Island WWTP training room on Oahu**
- Wednesday, June 2nd - Kihei WWTP training room on Maui**
- Thursday, June 3rd - Kauai Civil Defense Classroom on Kauai**

Email us asap to reserve your seat. Space is limited!

Classes are from 8 - 2 pm with 1-hour lunch break. Snacks will be provided. Participants will earn 0.5 Continuing Education Credit and a State issued certificate.

Did You Know???

Pacific Pump and Power has been the company you trust for your pump rental and sales needs for almost four years and now we are taking it a step further! Pacific Pump and Power now offers "Turn Key" bypassing services.

Turn Key bypassing services includes the same free engineering advice on the pump selection and layout that Pacific Pump and Power has always offered but now we have the capability to create your full bypass plan, set up the project, run the bypass for the duration of the project, tear down and haul out the equipment.

We have a huge range of pumps, piping, hoses, and support equipment and most importantly the skills and training to ensure a hassle free - worry free bypass every time.

Let us know if you have an upcoming project; we will come out and walk the job with you and put together a cost estimate.
