

## Pumping in the Ala Wai Small Boat Harbor!

Pacific Pump and Power is working with Mocon Trenchless Technologies on bypassing the sanitary sewer system at the Ala Wai Small Boat Harbor. Mocon is bypassing from two manholes with 4" CD103M Critically Silenced Diesel Dri-Prime Godwin Pumps set-up with automatic float controls. For back-up, Mocon has one 4" CD100M Dri-Prime Godwin Pump also on automatic float controls alongside each of the primary pumps.

Mocon is using pneumatic pipe plugs from Pacific Pump and Power's extensive pipe plug locker to plug the downstream side of the 6" and 12" sewer lines that Mocon has to work in.
