

The Storm Culvert Has Passed Final Inspection!

Robinson Construction is a General Contractor based out of Portland Oregon who has been contracted to build a new hardware store on Nimitz highway on the way into Honolulu. Robinson completed construction of the store back in April in time for the April 19 store opening but has remained on site working on the offsite utilities and onsite box culvert through till this time.

Pacific Pump & Power has been working on the site for about three years now starting with the initial cleanup of the site by ESI and moving to large amounts of onsite dewatering and later off site dewatering into frac tanks for rein filtration into the existing ground system.

Starting January 3rd 2011 Pacific Pump and Power has had personnel on site 24 hrs a day 7 days a week through all holidays and weather events to monitor the Storm water bypass system. With the help of Pacific Pump & Power's knowledgeable staff and dependability this bypass has gone very smooth with little to no hiccups.

We would like to thank Robinson Construction for a great project and look forward to working with them on their upcoming projects in the Hawaiian Islands!
