McElroy Has Distribution and a Certified Rental Center in Hawaii!!!

Pacific Pump & Power has become the McElroy distributor for Hawaii and Guam. We will be covering all aspects of the market including sales, parts service and rental. We have committed to stock machines for both purchase and rental as well as an inventory of parts. PPP is also in the process of training a McElroy factory certified fusion trainer as well as mechanics trained on all varieties of McElroy machines.

To ensure you get the quality you deserve, Pacific Pump & Power is a part of the McElroy certified rental program. This program is very strict to ensure our rental equipment always goes out in near new condition. We carry and work with only genuine parts and follow all the procedures and checklists provided by the Factories program.

In our rental fleet we currently have a T500 Tracstar that will handle from 6" to 20" IPS HDPE pipe and a PitBull 26 which will handle 2" to 6" IPS HDPE pipe. We are also bringing in a 2LC and a PitBull 14 for sale and an assortment of spare parts and inserts for the most common machines in Hawaii. If you have McElroy Fusion machines please let us know which models and the serial numbers you have by emailing us at Sales@hawaiipumps.com so that we can stock parts on island for your machine
