High Density Polyethylene pipe is being used in Hawaii more and more because when fusion welding is done correctly it provides a durable, leak free, joint free system. To do this fusion welding properly it is recommended for the operators to be certified.

Pacific Pump & Power has good news for you. We are holding a small and medium diameter operator qualification class on Oahu June 22<sup>nd</sup> – June 26<sup>th</sup>! This will be two classes, Small diameter Monday, Tuesday and half day Wednesday and Midrange half day Wednesday, all day Thursday and Friday. This will be held at Pacific Pump & Powers yard in Campbell Industrial Park to save you the thousands of dollars of traveling to Tulsa, Oklahoma for factory training. Each course is offered at the same price the factory charges, \$1,100.00/operator.

To register for these classes please call 808-672-8198, or email us at [Sales@HawaiiPumps.com](mailto:Sales@HawaiiPumps.com).

**EACH COURSE COVERS:**

- FUSION THEORY
- PROPER FUSION TECHNIQUES
- APPLICATION TIPS
- EQUIPMENT DESIGN
- TROUBLESHOOTING RESOURCES
- DOT REQUIREMENTS (PHMSA)
