Bypassing Sewage

Do you get uncomfortable at the idea of bypassing raw sewage with diesel pumps through above ground temporary piping? At Pacific Pump & Power we are experienced enough with bypassing that we are very comfortable working with sewer bypasses of all sizes for you!

Our pump watch operators are all trained in troubleshooting and preventative maintenance. When an issue does arise they can make sure the backup pump turns on, fix the problem and get the primary pump back online. In the unlikely event that the primary pump is not easily repairable, Pacific Pump & Power has a large fleet of pumps and support equipment on island. We have 24/7 support staff to make sure that we are back to having a reliable system with redundancy on a moment's notice.

Pacific Pump & Power is also a State of Hawaii licensed sewer contractor (license C32223) and has confined space training.

If there is anything we can do to help you with your sewer bypass needs, do not hesitate to call 808-672-8198, **anytime**, or email us at Sales@HawaiiPumps.com.

Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei
