Mighty Pumps Corporation Disrupts the Market with Patented Mighty Dredge Technology

Pacific Pump and Power Corporation has a sister company in Canada called Mighty Pumps that has just officially launched their Mighty Dredge.

The Mighty Dredge is driven by a computer that controls the position and the speed of its Dredge Cutter to provide optimum solids flow 24/7 without any human intervention of any kind. Dredging operations anywhere can now be completed more safely and at a lower cost by using the Mighty Dredge. The Mighty Dredge comes in all sizes and utilizes different cutter heads and pumps depending on the type of material that needs to be dredged. These dredge systems are available through Pacific Pump and Power with Flygt 5000 series dredge pumps!

If you are interested in purchasing a Mighty Dredge, us at 808-672-8198 or email us at Sales@hawaiiumps.com
