Pacific Pump and Power!

Over this past year, Pacific Pump & Power (PPP) has added to its focus the power side of the business. We have become a distributor for the largest compressor brand in the world, Atlas Copco. This distributorship gives us access to the industries leading compressors - both stationary and portable, generators and light towers. PPP has been dedicating a lot of time and resources to become the islands best option for both electrical and pneumatic power! One of the advantages that we offer with the Atlas Copco generators over the competition is that they are both standby and portable rated. Atlas Copco light towers and generators are built to the same high standard as their industry leading compressors!

Having more products in our line card is not what makes PPP the best solution to your needs. Our factory trained mechanics work on your existing pumps, compressors and generators (all brands) not just the ones we sell. This is where we see the most value that we can add to your business. We have the portable load banks and other specialty tools to test your equipment either in our yard or in the field.

Preventative maintenance is vital for high use equipment. This is something that often gets neglected. PPP would like to set up a preventative maintenance program for your equipment at minimal cost so that the equipment you already have works its best and lasts!

If we can be of service to you to on any of your Power needs, please call us at 808-672-8198 or email Sales@PacificPumpandPower.com. Our team answers emergency calls 24/7.

Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei
