## Bypassing Clean Water!

When our clients think of bypassing, the first thing that comes to a lot of minds is pumping raw sewage. This is not always the case! Pacific Pump and Power is currently doing a project with a client who is bypassing a delicate clean water system to support marine life. This project is utilizing the same type of pumps we use for sewer work, 8" CD225M Godwin Critically Silenced Dri-Prime pumps, but the pumps, hoses and fittings are sanitized adequately to ensure no potential harm is done to the marine life! Pacific Pump and Power is able to handle, and has experience with all types of bypasses, including potable drinking water.

If we can be of service to you to on any of your bypass needs, please call us at 808-672-8198 or email [Sales@PacificPumpandPower.com](mailto:Sales@PacificPumpandPower.com). Our team answers emergency calls 24/7.

*Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei*
