## Pump, Generator, Fusion Machine, Compressor Servicing, Preventative Maintenance and Repairs

Our customers are accustomed to consistently getting only the most reliable and meticulously maintained equipment from us for pump, compressor, generator, light tower and fusion equipment needs. This comes from Pacific Pump & Power having a crew of excellent mechanics! Our mechanics are very experienced at preventative maintenance, repairs and even complete overhauls. We have the precision tooling and experience to handle almost any pump, including API and ANSI units, compressors - both towable and stationary, generators, light towers, fusion machines, jetters, pressure washers, air operated double disc diaphragm pumps and gasoline trash pumps.

Our factory training from Atlas Copco, Flowserve, Xylem, McElroy, Volvo Penta, and Warren Rupp has us well versed in almost anything that can be thrown at us.

By the end of this month we will have added an additional 40' x 80' shop to maximize efficiency at our yard and, as always, we are happy to add to the numerous preventive maintenance contracts on compressors and generators we do at client's sites.

If we can be of service to you to on any repairs, servicing or preventative maintenance on your equipment, please call us at 808-672-8198 or email [Sales@PacificPumpandPower.com](mailto:Sales@PacificPumpandPower.com)

Call today at 672-8198 or visit us at Campbell Industrial: 91-503 Nukuawa Street, Kapolei
