## Bauer Quick Disconnect Pipe & Fittings

Pacific Pump & Power, PPP, should probably be called PPPP. What is the fourth P? Pipe!

You cannot pump without pipe, hoses and fittings! Pacific Pump & Power has miles of piping, thousands of feet of hose and thousands of fittings. The majority of our fleet is Bauer Quick Disconnect Piping.

It is a ball and socket style fitting so unlike Camlock, Flanges, Victaulic and threaded fittings, you can be up to 15 Degrees off of straight and it will still clip up! Those of you who have put a Camlock or Victaulic fitting together for a temp job in the field will know where I am coming from on how awesome that is. It also has a great pressure rating that varies based on size and is really easy to restrain the clamps.

We commonly use 4", 6", 8" and 12". It is also available in other sizes. We have a large inventory of Bauer adaptors, hoses and piping for sale and for rental.

Some clients have even used it to make the connection for their hoses to pier for unloading concrete from their ships safer!

If you are interested in or need assistance with pumps, power, compressed air, fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email [Sales@PacificPumpandPower.com](mailto:Sales@PacificPumpandPower.com)
