Pacific Pump & Power Has Added More Machines into our Rental Fleet!

For many years Pacific Pump & Power has been Hawaii's McElroy distributor with a stock of new machines, parts, factory certified mechanics and a McElroy certified trainer. We also have a sizable rental fleet that ranges from manual machines all the way up to the latest addition to our fleet, a high-force TracStar T900!

This addition to our fleet allows fusion up to 900mm HDPE! As always with our Certified Rental Equipment, the unit is always maintained in like-new condition ready for your project!

The TracStar[®] fusion machines are the number one choice on jobsites fusing long pipelines with their ease of maneuverability and freedom of movement. Self-propelled via rubber crawler tracks, these vehicles can traverse rough terrain and grades up to 30%. All of the TracStars are self-contained with all of the necessary electrical equipment on board. The carriage is mounted on the track-driven chassis for easy pipe loading and movement along the pipe. The carriage is also removable so that pipe can be fused on special applications in the ditch.

If you are interested in, or need assistance with fusion, compressed air, pumps, power, sewer bypass, pipe plugs, service or operations, please call us at 808-672-8198 or email Sales@PacificPumpandPower.com

Check us out on the web at www.PacificPumpandPower.com
