MORE TRAINING CLASSES!

In the summer of this year, Pacific Pump & Power did training classes in Maui and Kauai to teach waste water operators as well as contractors our free Pumps 101, Basic Hydraulics and Portable Pump System Design Course. This was the first time in a number of years that we held these classes and they were very well received. The students learned a lot and it really helped our industry develop their pump knowledge.

With the success of those classes, we held another three courses this month in Kailua, Kapolei and Honolulu. The turn out for these courses were even bigger than our first round of classes!

Thank you to all of you who attended and we look forward to doing another course next year!

Do not let all of this training mislead you. We are still here primarily to be your best solution for all your pumping and power generation (including air) needs!

If you need assistance with sewer bypasses, compressed air, pumps, power, fusion, pipe plugs, service or operations, please call us at
