PACIFIC PUMP & POWER

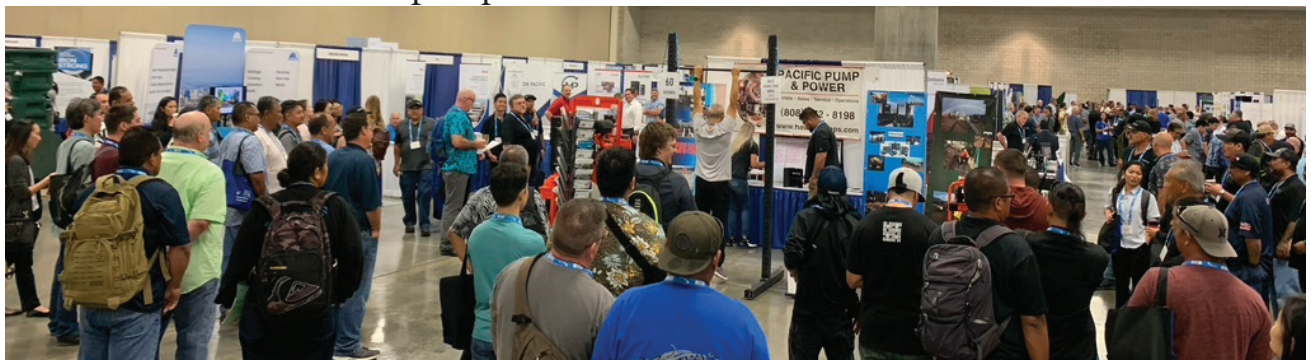

Hanging Out at the PWC

Every year Pacific Pump & Power participates in the Pacific Water Conference both as an exhibitor and as a speaker for one of the presentations. We wanted to use this month's newsletter as a way to say thank you to everyone involved in this conference to make this one our best ever! The booth was full of people - more than we have ever experienced and our presentation on why HDPE is the industry's best pipe choice had so much people in attendance that of all the standing room and chairs were full and dozens of people attended it from outside the room!

We would also like to congratulate everyone who participated in our hang competition. Shout out to Scott Southwick who won the Yeti for hanging for an impressive 3 minutes and 5 seconds!

If you need assistance with sewer bypasses, compressed air, pumps, power, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us a Sales@hawaiiipumps.com
