## We Need Your Feedback

Pacific Pump & Power has been in business here in Hawaii since 2006. In that time, we have expanded significantly from just renting pumps to being a licensed contractor with a wide range of complementary equipment for sale and rent. Our fleet now includes a large range of pumps, generators, air compressors, light towers, HDPE fusion equipment, pipe, fittings, hoses and a lot of parts!

Now for the feedback portion. What would you like to see us providing more of? We use Godwin's National list rates for pumps, compressors and generators, and other mainland pricing for our fusion equipment. Are we priced where we need to be? Is there other equipment or sizes of equipment that we could add to our fleet that you would appreciate?

We have been expanding our presence in Maui and Kauai to serve those markets better. Not only do we have yards on those islands, we also stock equipment, hoses and parts there. Is there equipment or services that you would like us to offer in Maui and/or Kauai that are not currently well served?

If you need assistance with sewer bypasses, compressed air, pumps, power, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at [Sales@hawaiiumps.com](mailto:Sales@hawaiiumps.com)

If you reply to this Newsletter with constructive feedback and your mailing address, we will mail you a Yeti style insulated beer cozy!
