## Moving Poop!

Over the past couple months Pacific Pump and Power has been working with a contractor at a military installation bypassing big sewer flows while they did the final tie-ins and testing on their new waste water pump station.

At its peak of bypassing between leads, lags and backups we had seven 8" CD225M Critically Silenced pumps, two 6" CD150M Critically Silenced pump, two 4" CD103M Critically Silenced pump and two 18" Silenced pumps on site! The contractor was fantastic to work with and they utilized our pump watch for 12 hr night shifts to ensure that they could rest easy knowing our team had everything under control.

If you need assistance with sewer bypasses, compressed air, pumps, power, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at [Sales@hawaiiipumps.com](mailto:Sales@hawaiiipumps.com)
