## The Sewers Need to Flow!

Few things in life are certain. Death, taxes, and sewers flowing all make the list! This summer has been busy moving liquid waste from pump stations and sewer manholes all across the state. We have had bypasses ranging from 30 million gallons per day down to little lateral lines with hardly any flow. No matter what size the line is, the same degree of care and attention needs to be attributed to all bypasses. This ensures that no wastewater touches the ground. With reliable equipment, automated back ups, and detailed testing procedures, you can sleep well at night.

If you need assistance with sewer bypasses, compressed air, pumps, power, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at [Sales@hawaiiumps.com](mailto:Sales@hawaiiumps.com)

## PACIFIC PUMP & POWER

**Dri-Prime Pumps for Sewer Bypassing & Dewatering**

**Portable & Industrial Air Compressors**

**Portable & Standby Generators**

**Electric Dri-Prime & Submersible Pumps**

**Hydraulic Power Packs & Submersible Pumps**

**High Head Pumps for Temp Fire and Cleaning**

**QD Piping, HDPE Piping, Hoses, & Fittings**

**Pipe plugs, Vacuum, Joint & Mandrel Testers**

**Flanged Road Crossings in a Range of Sizes**

**Diesel, Electric & Battery Powered Light Towers**

**HDPE Fusion Equipment and Training**

**Dredging Equipment**
