Reflection on 2021

Is it just me or did 2021 fly by! As I was thinking about a topic for this month, I decided I would do it on a quick reflection on 2021.

Despite all the challenges with the worlds “New Normal”, Pacific Pump & Power has put more focus on fusion, power generation, Atlas Copco air compressors and expanded our product lines to include Honda Engines and Honda Power Equipment. We have added more pumps to live in our Maui and Kauai yards, expanded our sales team, and added more mechanics to keep up with all the client repairs we have been doing. All in all, we had made a lot of improvements. 2021 is looking like it will be a record year for us, not because we have had more pump rentals but because we have expanded our offerings to help our clients in more ways.

If you need assistance with sewer bypasses, compressed air, pumps, power, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiumps.com
