Prices Have Gone Up!

Supply chain has been tight over the past couple years and as you are well aware, this has led to long lead times and higher prices on just about everything! Pacific Pump & Power does our very best to keep our pricing very competitive for both sales and rentals by honoring mainland rates with no additional markups for being in the islands.

Unfortunately, all of our suppliers have increased their pricing, averaging approximately 11% for sales of new equipment. The Xylem mainland rental price list has also gone up an average of approximately 6%.

Quotes that have been sent out prior to this price increase are still valid for 30 days from that date the quote was sent. Any new quotes will have the new pricing factored into the quotes.

We do have some good news for those of you looking to buy new equipment. We bought a selection of new equipment to have in stock before the price increase that we are willing to sell at the pre-increase price. This includes two 188cfm Atlas Copco Air Compressors, two 400cfm Atlas Copco Air Compressors, a 6" CD150S CS, a 150kVA Atlas Copco Generator, a 55kVA Generac Generator, some Atlas Copco Piston Compressors and an assortment of Honda pumps and generators.

If you need assistance with generators, compressed air, sewer bypassing, pumps, HDPE fusion, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiumps.com
