Bypassing In The Lava!

Last month, Pacific Pump and Power did a sewer bypass for a contractor over on the Kona side of Hawai'i Island, bypassing a sewerline for a tie in. The contractor had to tie into a man-hole in the system so they needed us to bypass around it. It was interesting crossing multiple roads and placing pumps on lava rock. The contractor had us bring a crew over to set the project up and monitor the pumps while they ran. All in all, a very successful bypass!

If you need assistance with bypassing, joint testing, HDPE or PVC pipe fusion, dewatering, generators, compressed air, dredging, pumps, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiipumps.com.
