## Equipment on Kauai and Maui

Pacific Pump & Power has serviced all of the Hawaiian Islands and Guam since we opened our doors in 2006. In recent years we have been trying to really step up our game on Maui and Kauai! With centrally located yards on both islands we strive to stock them with the equipment that you need for your projects without having to bring equipment over from Oahu.

In Kauai we have been stocking three open 6” pumps and two critically silenced 6” pump along with a selection of both suction and discharge hoses and fittings.

In Maui we have been stocking two critically silenced 6” pumps and two critically silenced 8” pumps as well as a selection of both suction and discharge hose and a selection of Bauer pipe and fittings.

At this time we do not have full time staff on these islands but we have trucks and equipment to set up projects and service the equipment to maintain our fleet in the excellent shape you expect from us.

If you need assistance with HDPE or PVC pipe fusion, dewatering, generators, compressed air, dredging, pumps, pipe plugs, service or operations, please call us at 808-672-8198 or email us at [Sales@hawaiiumps.com](mailto:Sales@hawaiiumps.com). If there is something specific you want us to stock let us know!
