Bypassing Without Pumps?

20" x 30" with 6"
By-Pass (F)NPT

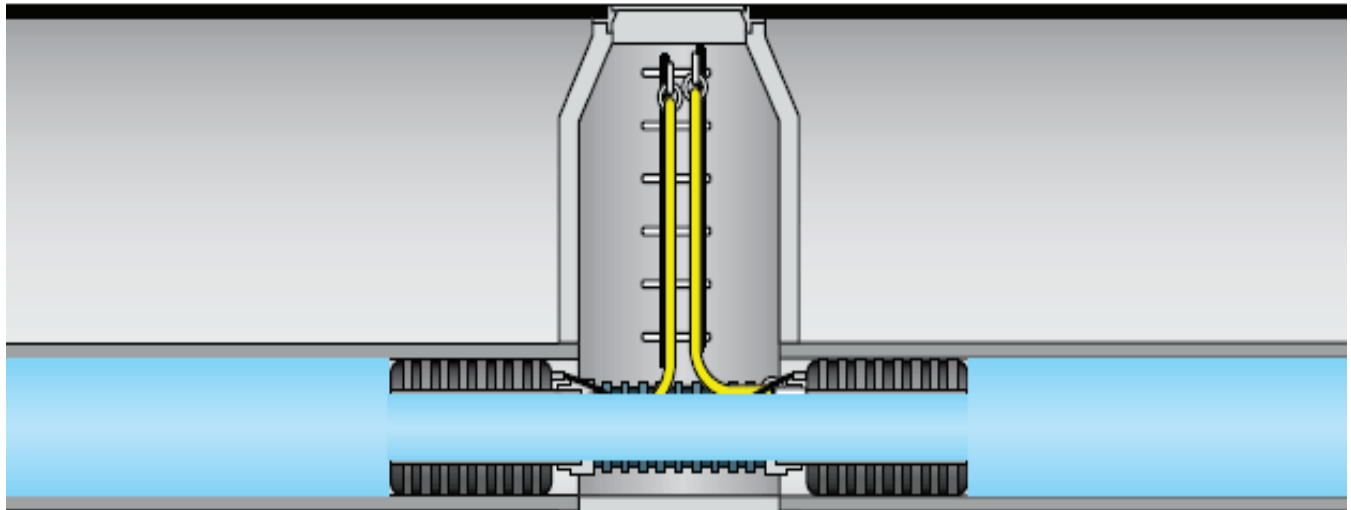

36" x 48" with
8" By-Pass

*Custom Designs
Always™ Available*

Pacific Pump & Power has a huge fleet of pumps to enable us to bypass sewer in almost any capacity. We also have a huge fleet of pipe plugs to do bypasses without pumps. Some calculations need to be done to ensure we allow a large enough flow thru on the plugs to ensure the flows do not back up. There is often applications where we can bypass through a sewer manhole to keep it dry and allow a contractor to tie into it or rehabilitate it without needing to get any pumps at all!

If you need assistance with bypassing, joint testing, HDPE or PVC pipe fusion, dewatering, generators, compressed air, dredging, pumps, pipe plugs, service or operations, please call us at 808-672-8198 or email us at Sales@hawaiiipumps.com.
